Trauma Radiology Course

Brought to you by Australian leaders in emergency, trauma and radiology education, this one day intensive interactive course will provide you with knowledge and skills to detect common, life threatening and frequently missed injuries in trauma patients.

This is an important learning opportunity for ED registrars and FACEMs, as well as other medical, nursing, radiology and paramedic staff involved in the care of trauma patients.

WHEN

Sunday 7 December • 8:30am – 3.30pm

WHERE

AMREP Education Centre Lecture Theatre, Alfred Hospital, Prahran

WHO

Doctors • Emergency, Trauma, Surgical, ICU, Radiology, GP
Nurses • Emergency, Trauma, ICU
Radiographers • Paramedics • Students
